INDUSTRIAL SERVICES

TURNKEY SOLUTIONS START TO FINISH

The Carylon Industrial Services Group uses proprietary cleaning technologies for maintenance and outage-related activities, helping improve operating efficiencies to reduce downtime. We are one of the nation's largest, most experienced industrial services contractors, with over half the Fortune 500 companies relying on us to ensure environmental infrastructure and equipment run smoothly.

Rely on the experts

- Proven track record of providing expertise, equipment, and technology to tackle any maintenance challenge.
- Extensive training, experienced supervision to ensure every job is done right the first time and every time.
- Bonding capacity of up to \$50 million per project to provide a layer of trust and protection for customers. This limit may be increased for specific projects.
- Local presence, national footprint means we can respond faster to any infrastructure threat or emergency.

Guaranteed to get the job done right

The Carylon Industrial Services Group backs up our comprehensive services with an unmatched guarantee:

“You must be completely satisfied or you pay absolutely nothing for our services.”

Founded on innovation

Carylon Corporation began its legacy in 1949 as a small utility services company and is now one of the largest, most respected companies of its kind, with over 1,500 employees and 2,000 vehicles and pieces of equipment. Our customers count on our deep history and expertise, knowing our years of experience are at their service.
